

How much does it cost to set up a website?

How much does it cost to setup a website?

[Back to Top](#)

This answer will vary from designer to designer. There are several factors to consider for expenses in terms of the web development process:

- Domain Name Registration
- Hosting Fees
- Design and Development Fees
- Software License Fees

In reality, a professionally designed website doesn't have to be an expensive undertaking. NOLAGraphics will work with your existing data and vision to create a website that is within your budget.
