Your website should effectively represent your company to the world at large. We will need electronic media which includes images, text, flyers, logos, newsletters, or any other artwork that is utilized in your currently marketing strategy. We would also need an outline of what you would like for each page to say - If possible, we would prefer you to outline what the text of the pages should say -- you know your business better than we do. We work with you to add ideas and strategies to create an optimal website. Our goal is to do the best possible job for you -- your satisfaction is important to our success.
