

Our promise to you...

Our promise to you…

[Back to Top](#)

NOLAGraphics wants to earn and retain your business and offers a host of small business solutions to this end. If you think you are going to find a lot of legal mumbo jumbo and fancy double talk, you’ll have to look elsewhere. Our promise is simple…We treat our clients the way we ourselves would want to be treated. Therefore, we promise to offer an affordable, creative and customized solution that will address your specific needs.

We only charge 50% of the first phase of a project up front depending on the project and the projected costs. This is simply to discourage the “tire kickers” out there who are not willing to commit to the project but ARE willing to have us do the work. Our time is valuable, too!

Since we primarily deal with small and medium sized businesses, we offer pricing and payment solutions that don’t represent a financial burden and will work with you up front to ensure arrangements that satisfy both sides.

A word about our services:

Web Development – We guarantee our work in terms of design. Some people believe that “if you build it, they will come” and this is simply not the case. NOLAGraphics will be happy to develop your website and, upon completion, assist you in submitting your site to search engines, develop keywords/metatags, and provide other search engine optimization (SEO) services. We cannot guarantee rank on any search engine and anyone who tries to do so should be viewed with more than a little skepticism. When you think about it, there can be only ONE. If every SEO company says that they will put your company at the top, keep in mind that they have said that to ALL of their customers.
